

Japan Apologizes Hurriedly Today for Bombing Boat

Takes Initiative and Ex- presses Regret in Advance of Protest

Tokyo, July 31—(AP)—The Japanese government took the initiative today and quickly apologized and expressed regret to U. S. Ambassador Joseph C. Grew for the bombing of the United States gunboat Tutuila at Chungking, China.

Before Grew left his office this morning, Vice Foreign Minister Kumaichi Yamamoto called at the embassy and requested permission for Foreign Minister Vice Admiral Teijiro Toyoda, to call.

The visit was cancelled at the last minute, however, and it was requested that Grew call instead at the foreign office. There the foreign minister expressed the government's regret.

The Japanese initiative occurred before Ambassador Grew was able to act on Washington's instructions to make representations against the bombing, which occurred yesterday.

Meanwhile the navy minister's chief aide visited the American naval attaché, Commander Henri Smith-Hutton, to express regrets.

In his 20-minute talk with the foreign minister, Grew was assured that the Japanese armed forces everywhere had been instructed to take the utmost care that American property not be damaged.

The American ambassador also protested on three separate occasions today to the foreign office against telephone and cable censorship under which information on the Tutuila incident was kept from leaving the country until after Grew's meeting with Toyoda.

In yesterday's incident during the third Japanese air raid on the provisional Chinese capital in three days, a bomb which fell near the 370-ton Tutuila wrecked the gunboat's speedboat and badly damaged another of her small boats. None of the crew was injured.

Another bomb crashed about 400 yards east of the U. S. embassy in Chungking. Both the embassy and the gunboat are within the zone where Japanese authorities had told Americans they would be safe.

The Tutuila has been in the line of fire several times previously.

CAPITAL AWAITS WORD
Washington, July 31—(AP)—Sumner Welles, Acting Secretary of State, said today Japanese apologies for the bombing of the U. S. gunboat Tutuila in China were insufficient to close the incident.

This government, he said, awaits a more complete reply from Japan to the American representations made here and in Tokyo.

Wells said that immediately upon being informed of the incident at Chungking yesterday morning, a representative of the Japanese government called at the embassy in Tokyo and expressed deep regrets.

This was done, he said, before Ambassador Joseph C. Grew was able to carry out instruction to make representations.

Detailing to his press conference further Japanese moves in connection with the incident, Wells said the Japanese government made a further preliminary reply after Grew had carried out his instructions.

Until a more complete reply is received, Wells said he could make no further comment.

Burlington Shows Gratitude; Gives Wallace Welcome

Burlington, Ia., July 31—(AP)—Burlington dropped into defense contracts \$61,000,000 in defense contracts over its last six months, is the \$30,000,000 Iowa ordnance plant. The new and vast munitions manufacturing center, reputed to be one of the largest of its kind in the world now is employing approximately 13,000 men in its final stages of construction.

The plant payroll of half a million dollars a week is approximately double Burlington's normal times industrial salary total.

The first shell off the loading line will be presented to the city of Burlington in a ceremonial dinner and program in the evening.

It's the Heat

Husband Cooled Off—

The heat wave infuriated a husband who engaged in a quarrel with his wife yesterday afternoon in Dementtown, and after landing a few blows, he grabbed a bread knife and drove her from the home. Police were called, but the chase had ended and the wife refused to sign a complaint against her husband who had gone to the home of his father to cool off after the chase.

Anyway That's His Story—

George Hartog, heavyweight carrier on the star mail route between Freeport and Dixon, blames the hot weather for the actions of bee which flew into the cab of his truck yesterday afternoon as he was driving north to Freeport. The lone honey manufacturer chose the vicinity of George's left optic as a brief resting place and there imprinted its trade mark. The eye was discolored and swollen. The owner of the truck said the bee was gone after this morning.

Refuge in Coal Pile—

"Michael O'Day's the name and try to find a better one," a prisoner arraigned before Police Magistrate James E. Bales in police court today, replied when taken into court, Mike gave Rochelle as his home address when a charge of intoxication was preferred by Patrolman John Bohnstiel, who took him in custody late yesterday afternoon.

The officer pulled Mike from a coal pile west of Peoria avenue along the river bank, where he had sought relief from the heat, after imbibing too freely and had partly covered himself with coal screenings. Magistrate Bales assessed a fine of \$50 and costs and O'Day chose to leave the city in preference to going to jail.

Mendota Mother, Son, Alleged Kidnapers of Girl, Now Free on Bail

Winona, Minn., July 31—(AP)—Mrs. Steve Seno, 52, and her son, Frank, 20, both of Mendota, Ill., were free on bonds of \$1,000 each today after pleading innocent to kidnapping charges brought by the woman's 22-year-old daughter, Vincenia.

The girl alleged that she was forced into an automobile and spirited out of Winona against her will. She said her family wanted her to work in a restaurant without pay.

Sheriff Ben Zimmerman said Mrs. Seno told him after being released yesterday that she and her son would return to Mendota.

Habeas Corpus Case on in Circuit Court

A psychiatric examination to determine the present mental condition of August Lococco, committed to the Dixon state hospital, was expected to be ordered by Judge George C. Dixon in the Lee county Circuit court today, in a habeas corpus proceeding instituted against Dr. Warren G. Murray, managing officer of the institution. The action has been started to secure the release of the patient, who it is alleged is illegally held in the institution.

The hearing was opened, State's Attorney Morey C. Pires appearing for Dr. Murray and a Chicago attorney representing relatives of the patient seeking his dismissal. At noon the hearing had reached a point where Judge Dixon intimated that the psychiatric finding might be necessary to determine Lococco's present mental state before proceeding further with the hearing and a psychiatrist from the institution was to be present at 1:30 o'clock to which hour the hearing was continued.

No Big Purse Without a Fight Is Brown Bomber's Answer to His Wife

Chicago, July 31—(AP)—Joe Louis' lawyer served notice today that the champion wasn't going to allow his wife to get a divorce without a fight.

All plans for a quiet hearing and a amicable settlement are off, said Attorney William H. Temple. "We tried to work things out at a conference last night, but we couldn't, and now it looks like a real court battle," he added.

Bendley C. Cyrus, counsel for the boxer's 24-year-old wife, Marva, disclosed that money was now the chief obstacle to settlement.

Price Control Law Introduction Held Up Until Tomorrow

Last Minute Suggestion Changes Plans of Its Sponsors Today

Washington, July 31—(AP)—What the head of the Federal Reserve Board described as "everything on the inflation front" came up for discussion today at a White House conference on legislation to establish ceilings on prices and rents.

Marriner S. Eccles, the reserve board chief, and Leon Henderson, price administrator, talked over the whole situation of prices and installment credit in a half hour conference with President Roosevelt.

After Eccles gave newspaper men his terse summary of the meeting and Henderson waved to them with a document he said was a "copy of my bill" to control prices.

Legislation was expected to be introduced quickly in pursuance to the president's special message of yesterday requesting power not only to limit prices and rents to head off inflation, but to deal with excesses in the field of installment credit and to stabilize markets by buying and selling "as the exigencies of price may require."

Democratic Leader Barkley said that a last minute suggestion for revision of the legislation would delay its introduction in the senate until tomorrow.

Opposition Rumbles
Although Roosevelt's message to congress yesterday evoked bipartisan support in both houses, it also aroused rumblings of vigorous opposition, especially from farm-minded lawmakers.

Senator Bankhead (D-Ala.), who has sponsored many administration farm bills, bluntly announced he would oppose any ceiling on cotton at less than 20 cents a pound.

Anticipating that no attempt would be made in the legislation to control wages, Bankhead said many congressmen "are opposed to price fixing on agricultural commodities, especially when no effort is made to control the price of industrial labor. x x x A very vigorous and determined effort will be made to protect the farmers from having their income unfairly reduced by an arbitrary price-fixing program."

Martin Against Henderson
On the house side, Republican Leader Martin (Mass) supported the general opposition to "runaway prices" but added that "I do not believe Mr. Henderson is the right man for the job" of controlling prices.

Roosevelt said the legislation should include power to "establish ceiling for prices and rents, to purchase materials and commodities when necessary, to assure price stability, and to deal more extensively with excesses in the field of installment credit."

Senator Taft (R-Ohio), declaring that "we do need price legislation in some form," told reporters he favored a program granting administration to a five-man board. He suggested that the board be

Schick Memorial Here Legion Plan

Mr. and Mrs. David W. Schick of San Diego, Calif., have completed a brief visit in Dixon, the former home of Mr. Schick's brother, the late Charles W. (Daddy) Schick of navy and American Legion fame. The Schicks are making their way home leisurely by auto after a tour of the south and east.

Mr. Schick states that the American Legion post in Chicago which claims Commander Schick as its own has plans for the erection of a monument in his memory and an investigation is now under way to determine the best location in Dixon for the placing of this memorial. "Daddy" Schick was past national commander of the American Legion and also a past state commander and his name is written large in American Legion annals because of his splendid work in promoting important Legion progress.

reconciliation, which Mrs. Louis was very willing to have," Cyrus said. "When this could not be arranged we attempted to agree on an equitable settlement."

"Mr. Louis was not at the conference last night, but his attorney and his managers offered an amount that we felt was too small," Cyrus did not say how much had been offered.

In a day or two, Cyrus said, he would file a petition for temporary alimony in Superior court.

Mrs. Louis sued the Brown Bomber for divorce July 2, alleging that he had treated her cruelly and had twice struck her. Louis' answer was a complete denial.

The raid was the latest in a series of anti-Nazi moves in South America.

Girl Charges Mother, Brother, With Kidnaping

Minnesota and Wisconsin police, chasing a speeding auto carrying a couple and a screaming girl, halted it at La Crosse, Wis., and "rescued" Venetia Seno, 22 (left), who said the others in the car, her mother, Mrs. Steve Seno, and her brother, Frank, 20 (right), had kidnaped her at Winona, Minn., where she now lives, and sought to take her back to their home at Mendota, Ill.

Priorities Order to Curb Civilian Use of Silk Near

Washington, July 31—(AP)—A priorities order is in preparation which will curb substantially, if not completely, the flow of raw silk into hosiery mills and other civilian manufacture. Office of production management officials said today.

The order, expected within a short time, will probably provide for a deep initial cut in silk consumption, followed by gradually diminishing allocations to mills until the civilian use of the imported fiber is virtually halted, it was said, in order to conserve existing stocks for military purposes.

Concern for the 175,000 employees in the silk industry, who would be thrown out of jobs if mills were abruptly ordered to cease operations entirely, is a principal factor behind the plan for the gradual diminution of civilian allocations, an OPM priorities division official said.

Army Demand Not Heavy
While military demands are not heavy, defense leaders were said to feel that the small quantity of silk stocks in the country and the prospect of complete cessation of imports from Japan owing to the Far Eastern crisis make a conservation program necessary.

On July 1 there were only about 18 weeks' supply of raw silk—about 88,000 bales—in public warehouses and in the hands of mills. Normal consumption is 5,000 bales a week. Military uses, including parachutes and powder bags, normally account for only about 5 or 6 per cent of this consumption, and both war and navy departments have reported that stocks appear ample, considering that rayon or other substitutes could be adapted for parachute use.

**Motor Fuel Fund Work

Four motor fuel tax fund contracts were approved at Springfield today, one of which is located in Dixon. This contract was awarded to the C. F. Settle Construction Co. of Moline in the amount of \$1,805 and provides for the resurfacing of the following streets of the city: Boyd street from Galena to Jefferson avenue; Jefferson avenue from Boyd to Fellows street; Chamberlin street from Galena avenue east to the city limits; Chamberlin street from Upland Place east to Galena avenue; Hennepin avenue from Lincolnway to Morgan street and on Upland Place from Lincolnway to Chamberlin street.

The division of highways at Springfield also announced today the opening of bids on Aug. 8 for almost one mile of grading for the relocation of approaches to the new Grand Detour bridge in Lee and Ogle counties on state highway, route No. 2.

**Report Raids in Nazi
Hotbeds in Argentine**
Buenos Aires, July 31—(AP)—Smashing of a "subversive plot intended to overthrow present authorities" of Argentina was announced by police at Parana today after a series of raids in that provincial capital, a reputed hotbed of Nazi activity.

A large quantity of propaganda documents was reported seized in houses whose doors and walls the raiders said were decorated with the swastika.

Nine persons were arrested in the alleged plot which police said was centered in the finger of northern Argentina jutting northward along Uruguay's inland frontier and controlling waterways leading to Paraguay, Bolivia and Brazil.

The raid was the latest in a series of anti-Nazi moves in South America.

Hopkins and Stalin Resume Conference on U. S. Aid to Reds

Moscow, July 31—(AP)—Further conferences between Premier Joseph Stalin and Harry L. Hopkins, personal representative of President Roosevelt, were held today—the 40th of the Russian-German war—as the Soviet army was reported battling the Nazi invaders to a standstill in vital sectors of the long battlefield.

Heavy fighting raged throughout the night, a communiqué said on the path of the German drives toward Leningrad, Moscow and Kiev.

The Russians said they had beaten off three German attempts to bomb Leningrad by daylight yesterday and another attack on Moscow last night.

Hopkins, who flew to Moscow from London Tuesday, was granted an interview with the most important and most inaccessible man in Russia. He said he came to see Stalin at Roosevelt's request.

Saw Air Raid
(Hopkins saw his first Moscow air raid from a balcony last night, according to Erskine Caldwell, CBS Moscow correspondent.)

This morning Caldwell and Hopkins took a long automobile tour of the city with United States Ambassador Laurence A. Steinhardt.

Giving ones of the few public reports of an interview with Stalin, Hopkins said in a press conference at the U. S. embassy residence:

"We discussed problems of supply, including types and quantity of materials that can be delivered to the U. S. S. R. I cannot presently speak of the details of quantities."

"Stalin gave me a message to transmit to the president. He expressed his sincere appreciation to the president for his offer of assistance and declared he is certain that the Soviet Union will be able to meet its obligations."

Strikers Asked to Exempt Navy Yard

By The Associated Press
Striking AFL electrical workers today exempted a \$70,000,000 expansion program at the Brooklyn navy yard from their walkout and announced they would go back to work immediately as the Office of Production Management in Washington asked them to do.

The city-wide strike would continue on other construction projects, union officials said.

The OPM had promised an immediate investigation of the union dispute with Consolidated Edison Company which precipitated the work stoppage. It halted construction of a 16 story warehouse on the navy yard, affected work on two superdrydocks and threatened to slow down building of the \$100,000,000 battleships Iowa and Missouri.

That walkout and a strike of the CIO-Steel Workers Organizing Committee at the Timken Roller Bearing Company plant at Columbus, Ohio, were the principal strike controversies dotting the national scene.

Uncle Sam May Stop Buying Gold He Doesn't Need and Get Supplies

Washington, July 31—(AP)—The joint Canadian-United States economic defense board was working today on a plan for this nation to switch from buying a yearly total of \$200,000,000 worth of Canadian gold it doesn't need and begin taking in its place strategic base metals vital to defense preparations.

The United States already has some \$22,700,000,000 in gold—approximately 80 per cent of the

world's monetary gold supply—under guard at Fort Knox, Ky.

Authoritative sources disclosed that the Canadian and United States board members have reached an agreement calling for greatly increased American purchases from Canada of aluminum, asbestos, antimony, bauxite, copper, nickel, sulphur, zinc, chrome, brass, cobalt, magnesium, manganese, mica, stainless steel, titanium and selenium.

On Wednesday, July 30, a group of the Junior leaguers from the Paw Paw and Compton Methodist churches went to Chicago where they enjoyed the doubleheader ball game between the Cubs and the Philadelphia Phillies. About 15 leaguers from Paw Paw and about the same amount from Compton made the trip. An Ashton bus made the trip and the young folks took their lunch. The Rev. James H. Hagerty of the Paw Paw Methodist church deserves high praise for making the most enjoyable day possible for the group.

New Church Co-operation

The new August union services have been arranged. Plans have been completed to hold on Union morning service for the next four Sundays. This permits the ministers to have some Sundays off. It also means that there is a service for all, if they wish to go. Your ministers did not feel that all churches should close at the same time. We urge your cooperation in making these services helpful and inspirational. Following is the calendar for the August Union meeting:

August 3—In the Methodist church with the Rev. Herman Meyer of the Baptist church preaching.

August 10—In the Presbyterian church with the Rev. McMahon, a former pastor, preaching.

August 17—In the Baptist church with the Rev. James H. Hagerty, of the Methodist church preaching.

August 24—In the Methodist church with the Rev. J. Edward Dirks of the Presbyterian church preaching.

The church offering envelopes of each church will be forwarded to the proper treasurer. Bring your hearts in a high Christian spirit and praise God and rejoice.

Heat Wave Breaks

Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Illinois Officials Study Government's Offer of Lake Park

Crab Orchard Development May Be Added to Park System

Springfield, Ill., July 31—(AP)—State officials studying a federal government offer to lease the 30,000 acre Crab Orchard lake development to Illinois for park purposes, said today legislation making the transfer possible was enacted by the recent general assembly.

The authority was contained in a little noticed bill enabling various state departments to "acquire or accept" federal lands with the approval of the governor.

The fact that the bill was sponsored by the state administration does not mean, parks officials said, that the state has definitely decided to accept the Crab Orchard area either on a lease basis or as an outright gift. The tentative federal offer was for a 95-year lease on the lake and adjacent land in Williamson and Jackson counties.

Several officials in the Department of Public Works and Buildings said they looked with favor on the federal proposal, but expressed doubt that the transfer could be carried out until 1943 or later. It would be necessary to wait until 1943, they explained, to obtain a necessary legislative appropriation for maintenance of the tract as a park.

Other questions involved in the

lease plan are whether the federal government would assume the obligation of maintaining the dams impounding the 8,000-acre Crab Orchard lake, and whether the state could legally erect lodge or recreational buildings on leased property.

Attorney General George F. Barrett has been asked for an opinion on the latter question. Previous opinions have been that such construction would be banned by provisions of the state constitution.

Officials here expressed belief the federal government would agree to maintain the lake dam, while turning the rest of the area over to the state for park and conservation purposes. Preliminary surveys of Crab Orchard have been made by Arnold Kugler, state parks superintendent, and by representatives of Livingston E. Osborne, state conservation director with a view to the state's eventual acquisition of the property.

The Illinois park system would be more than doubled if the state acquires Crab Orchard. Present park lands now total approximately 19,000 acres. In addition, conservation officials have declared they are anxious to acquire the Crab Orchard area, as a fish preserve and game refuge.

All Foreign Language Publications Barred in Brazil on Aug. 30

Rio De Janeiro, July 31—(AP)—President Getulio Vargas extended today a decree halting foreign language publications in Brazil, giving them 30 more days to change over to Portuguese or to suspend publication. The extension ends "unalterably" Aug. 30. The decree ordering "nationalization" of about 50 newspapers and periodicals within six months was issued last January.

Alaska, with 8 square miles for each inhabitant, is by far the most sparsely populated region in the United States, according to the Census Bureau. Puerto Rico, with 544 inhabitants per square mile, is more than 4,000 times as densely populated as Alaska. Puerto Rico's population density exceeds that of any state except Rhode Island and New Jersey.

Democratic Senators Switch Chairmanships

Washington, July 31—(AP)—The Democratic steering committee named Senator Connally (D-Tex) Wednesday as chairman of the senate foreign relations committee. He will succeed Senator George (D-Ga), who will transfer to the chairmanship of the finance committee, which handles tax matters.

Senator Hatch (D-NM), author of the Hatch act to curb pernicious political activities, was named chairman of the privileges and elections committee, succeeding Connally in that post.

Approval of the senate will be necessary before the leaders finally are made, but leaders said this was only routine.

George, who has been chairman of the foreign relations committee since the death last year of Senator Pittman (D-Nev), elected to take the chairmanship of the powerful finance committee, a post vacated by the recent death of Senator Harrison (D-Miss).

U. S. investments in France at the end of 1940 were estimated at about \$165,000,000.

Thought for Today

Be not overcome of evil, but overcome evil with good.—Romans 12:21.

In men whom men pronounce divine, I find so much of sin and blot.—Joaquin Miller.

The More Horrible Thing

It is nearly 80 years, now, since American homes have crumbled beneath the juggernaut of war, since American blood shed in battle has stained American soil.

True, since 1864 the United States has had two wars, one fought in Cuba and at sea, the other in France and on the sea. Those who fought in them can testify to their terrors.

Yet war in the midst of one's homeland and in the peaceful streets and lanes of daily life is more horrible still. The tumbling flood of European dispatches for the past two years—nay, for the past 10 years, has numbed our consciousness of what war means today.

There has been no lack of accurate and flavorful reporting of today's war. Yet sometimes a more personal word comes that lights up a little sector of the vast war scene vividly.

Here is one, just received from a young Englishman. Too young for the World War, he was mild and idealistic, and felt that even Munich was justified in the hope of avoiding the holocaust that brooded over Europe and in his own gentle soul. But in the hour of peril at Dunkirk, he volunteered just the same, and was doing patrol work in a small craft in English waters. "We've had our share of mining and bombing and machine gunning," he writes, "and we've answered back as best we could . . .

"Last August I was glad to be actively hitting back because a random bomb ripped my lovely mother to shreds. My father was hurt, and I was recalled from sea to cope with the situation (in 72 hours).

"I found her hand, and some pieces, and these we buried in a sack. I was glad to get back to sea. Perhaps it was merciful; it was quick, and the sorrow too deeply with the sorrowful. Another year of anxiety (to be followed probably, by another similar year) would have broken her. . . .

"I do not believe that, even granted successful initial invasion, Hitler could ever conquer this country. He cannot win without invading and conquering this country. If he cannot thus win, then he must lose and be finally washed up, for we shall never let up."

How many millions of people, gentle people without hate in their hearts, have been thus converted into people who will never let up?

Enough, one trusts. For in Warsaw, Rotterdam, Coventry, Athens and Minsk, millions have seen and felt what the write of that letter has

seen and felt. Yet they know that there is a thing more horrible even than those they have seen—the prospect of living on their knees to the most ruthless, brutal regime ever to menace the modern world.

They, like the man who can never forget what he buried in a sack in England, will never let up.

The Sole Guarantee of Liberty

Only one kind of people is going to emerge from the current world crisis with their freedom, and that is the people who want and are resolutely determined to keep it.

There has been genuine concern on the part of thousands of American citizens as to whether they are losing our liberty. We have complete confidence that we are not. The source of that confidence lies in the conviction that the American people love their freedom and are determined to keep it.

It is certainly true that in the present acute condition of the world, power tends in all countries to concentrate. The most democratic countries in the world, facing predatory countries organized for nothing but stark, realistic action, have had to place themselves in a position to act with equal decision. That means temporary surrender, to a certain extent, of ordinary democratic procedures.

This is not as new to the United States as some of us like to fancy. Wendell Willkie recently made this clear in pointing out that almost all of the great decisions which have placed the United States in its present world position, were executive decisions. The Monroe Doctrine, the Open Door Policy, the expulsion of Maximilian from Mexico, the Panama Canal—all these things were done without waiting for extended debate. Yet today, by and large, the American people believe they were well done.

Today there is a strange inconsistency about these things. Some of the same people who have criticized the President for assuming too much power criticize in the same breath the efforts to control the price spiral as not having enough teeth, as aimless and indecisive. Some of the same people who criticized the destroyer-bases deal as arbitrary, now argue that in some way advantage is being taken of Congress because the President has put squarely up to it the decision as to whether soldiers shall remain soldiers while the menace which made them soldiers continues to exist.

Lincoln once said to a military commander accused of seeking a military dictatorship, "Give us victories, and I will risk the dictatorship."

So today, Give us the action that will make us strong against any possible aggression, that will prevent inflation and avoid the obvious perils that surround us, and we will risk our freedom.

Nobody is going to take away American freedom, because Americans love it, and are resolutely determined to keep it.

Cardboard King

A dispatch from Europe indicated that the Italian Duke of Spoleto, who has been named "King" of the new "Kingdom of Croatia," has not even had the nerve to go into his new domains as yet.

It seems that there is a little trouble in Croatia, guerrilla warfare and rioting and non-co-operation on the part of the people, who want no part of the Duke of Spoleto or any other Italian princeling who hopes to rule them under German bayonets. So the Duke, according to this dispatch, has deemed it the better part of valor not to go in person as yet to claim his new domains.

To us this speaks well for the prospective "King." Discretion is an excellent quality in rulers.

HOLD EVERYTHING

"Yes, it's very impressive looking—but how fast can it go?"

NEWS BEHIND THE NEWS

By PAUL MALLON

(Distributed by King Features Syndicate, Inc. Reproduction in whole or in part strictly prohibited.)

Washington, July 30. — Heavy political engineering developed on both sides in advance of the latest Fortune poll announcement. Confidential copies were handed around several days before publication. Consequently both Wheelers and government authorities were able to make preparations to use to their respective advantages the pronouncement that the American people have abandoned isolation.

The trickiness of the wording in the questions gave the supporters of Senator Wheeler their opening. Apparently 41.3 per cent of the American people who have "abandoned isolation" only answered affirmatively the question whether this country should "back" England. "Backing" is an extensive word. "Backing" England is what we are already doing. No one asked the affirmative respondents if they interpreted "back" to mean a declaration of war, a new AEF or any of the other possibilities.

On the other hand the government policy promoters claimed the non-interventionist views were adequately presented in alternative questions, and therefore the "Back England" injunction really represented a call for doing more than is being done.

Trial by jury may be required to decide. The only indisputable deduction easily made from the poll is that polls are losing their weight. Disputes over the shaded meaning of words, and the propaganda usage to which polls have been put, have made them more of an implement for controversy than for the presentation of a convincing popular decision.

In political campaigns the theory has been accepted that polls influence election results because "everyone wants to be with the winner." I have never met a person whose opinion was changed by a poll. Every personal comment I have ever heard on any particular poll was either a conviction that the poll was crooked if it did not come out the way the commentator desired, or that it was just fine—the right side won.

Therefore I have come to the conclusion that polls strengthen far more opinions than they change. Differences are emphasized rather than obliterated.

There is more than a surmise here that the famed General Wavell is in Burma. The "demotion" of Britain's best general from the command in the Eastern Mediterranean may therefore turn out to be not only a promotion, but a shrewd British anticipation of where fighting may next develop.

The well drilled Burmese force on the job have been strengthened by the best of the Indian colonial forces. Under a general like Wavell they could do many things to any irate Jap venture into Siam.

Rumors of a Jap or Nazi threat to ruin the Panama Canal are news to authorities managing the life-chord of our fleet. They indicate Jap ships are being sent around the Horn mainly to keep them out of observing work on the third set of locks and to express this government's displeasure at more Jap aggression.

The canal will be safe unless some foreign power gets at least two aircraft carriers or a land-air base within 1,000 miles. Commercial ships are searched thoroughly, so timebombing in the locks could only be attempted on

JOANNE M. HENRY

(Telegraph Special Service)

Paw Paw — Joanne Myrtle Henry, daughter of John and Catherine (nee Butler) Ryan, was born in East Grove township, Lee county, May 8, 1870 and passed away at her home very suddenly on July 25, 1941.

Her father passed away when she was only ten months old, leaving her mother, sister Catherine, and brothers, Daniel, Edward, and Larry. They lived on the farm owned by her mother, until the death of her mother in 1885.

She then made her home with William Balcom and family until her marriage to Joseph Pye. To this union were born a daughter, Mae Catherine, and a son, Albert Francis. After his death in 1894, she made her home with her sister and husband, Mr. and Mrs. Frank Leuer in Amboy. She was married to Lewis Henry on February 20, 1900. One son, Orville Lewis, was born to this union.

They lived on a farm near Roxbury until 1931, when they purchased a home in Paw Paw, where she lived until her death.

Those who are left to mourn her loss are her husband, Lewis, a sister, Mrs. Frank Leuer, and daughter, Mae, and sons Albert and Orville, a stepson, Arthur Henry of Snaaw Station, and a stepdaughter, Pauline Holdren, also eleven grandchildren, Gene Henry, Cleo, Merwyn, and Robert Pye, James E. Irwin, Madelon, and Donald Gallagher, Maxine Holdren and Olive Henry. Three great grandchildren, Daniel and Theresa Gallagher and Gary Gilmore; an only niece, Frances Ryan Nielson, and many friends and relatives. She was preceded in death by her three brothers.

Her funeral was held Monday, July 28, at the St. Mary's church at West Brooklyn. Father Curran of St. James church at Lee read the mass. Burial was held at the St. Mary's cemetery at West Brooklyn.

The pallbearers were: Henry Gehant, Tom Moore, William Buchanan, Robert Coss and Ralph Potter.

Mrs. Henry will be greatly missed by everyone. She was always willing and ready to help when help was needed.

MRS. RUTH B. ROUSSEAU

The funeral of Mrs. Ruth B. Rousseau, whose death at the Katherine Shaw Betha hospital Tuesday night was announced in last evening's Telegraph, will be held at the Bervyn church, Chicago, at 2:00 o'clock Saturday afternoon.

a minor scale which could only temporarily disable one lock.

House leaders politely delayed consideration of the tax bill an extra day because they did not have the votes to adopt the strong gag-rule they had planned. Objections to the clause encouraging any successful woman with an income to avoid marriage to a successful man with an income are rising so fast it is evident the idea will be completely changed or killed before the congressional debate is over (probably later in the senate).

No other important change in the bill can be expected in the debate, however.

The very private luncheon of Federal Reserve Chairman Eccles with the president involved primarily a new Eccles plan to curb installment purchases. Apparently the Federal Reserve Board has had nothing to do in defense and could handle this phase, if Eccles could arrange to be asked by Roosevelt. It's an old Keynes idea, which the British economist advocated on his visit here as a necessary step to avoid inflation.

TOWNSEND PLAN IN POETRY

Composed by A. B. Conner, a Townsend speaker of Kansas City, Kas.

Have you heard of the most wonderful plan That was ever conceived by the brain of a man?

Have you heard of the good it will do for our fathers and mothers and young folks, too?

For our country, the best in all the world This plan is the greatest ever un-

dered. It will help the young folks more than the old. For the young have longer to live, we are told.

It will help the needy, take care of the poor. And drive the old wolf from every door.

This plan you have guessed without a doubt. It's the Townsend plan that I'm speaking about.

It's a plan that is simple and workable, too. And Oh, what a wonderful good it will do.

It will make of this country, this "land of the free," The best place on earth, for you and for me.

A two per cent tax will pay the bill, And it won't take a nickel from Uncle Sam's till.

It will bring in millions, this two per cent tax. And put all our people on prosperous tracks.

It will put all factories to work night and day. And the unemployed millions will be glad to go to work.

So here's to our flag, oh long may it wave. O'er the land of the free and the home of the brave.

This transaction tax plan you will like to do. For you will not only be taxed on the business you do.

No business, no tax, big business and such. Will pay in proportion, 'twill not be too much.

Then Wall street, now taxless, will pay its just share. And homes will be saved when the tax plan is fair.

The farmer, the laborer, the business man, too. All will have plenty when the plan goes through.

When the masses spend millions each day of the year. It's bound to bring happiness, joy and good cheer.

So take off your coats and work with a will. For the Townsend plan, known as the welfare bill.

Woman Declared Dead Appears to Deny It

Paterson, N. J., July 31—(AP)—Mrs. Myrtle Conklin Voorhees Headwell walked into the Passaic county prosecutor's office last night and police had to start all over again on their investigation of the death of a woman whose body was identified by relatives as Mrs. Headwell.

Prosecutor Arthur C. Dunn said the bruised body, found in a West Paterson thicket Tuesday, had been identified as that of Mrs. Headwell by her mother, Mrs. Julia Everman, and other relatives.

Dunn said strikingly similar characteristics, including body scars, and hair and eye coloring, had led to the erroneous identification.

GIRL SCOUT NEWS

Camp Ralston Monday, July 28

Are we ever having a good time? Camp Ralston is swell. Of course, it's a little hot, but that doesn't bother us much. Yesterday after we had become acquainted, we had a cold lunch. Later we sang songs, and the girls who had been here last week, had a "Scouts' Own." Last night most of the girls had to sleep on a hike now. Thank goodness we go swimming tomorrow. I must close now because I just heard some of the girls call that ice water has been put in the water can, and if I want to get some I must run.

Love, Delores.

Osborn Comedy Opens Tonight at Grand Detour

In keeping with a custom established by the troupe last year of repeating the outstanding success of the preceding season and continuing the practice of offering the most popular New York favorites, the Grand Detour Players, under the direction of Richard Vernon, will offer Paul Osborn's comedy, "The Vinegar Tree," as their sixth presentation of the season.

The locale of the play is a Long Island estate, where Laura Merrick, a feminine scatter-brain, rules her elderly husband and daughter. The appearance of Max Lawrence, a celebrated painter, causes complications among the women, particularly for Laura, who becomes convinced that he is the artist whom she knew in her girlhood, although she does not remember clearly. Her efforts to recapture his interest, hindered by competition from her daughter and sister, provide three hilarious acts of amusement, accompanied by a touch of bitterness and tragedy, without which comedy is incomplete.

In the role created and made famous by Mary Boland will be a stellar favorite of Grand Detour audiences, Miss E. Melba Johnson, who will be making her first appearance of the season. Miss Johnson, who plans to tour the mid-west this coming season with her own company, has decided to prelude her work this autumn by appearing with the Grand Detour Players.

Other members of this week's cast include Director Richard Vernon, Don Randall, Miss Edith Perry, Joan Norlander, John Cosgrove, and Frank Duffy.

The opening performance of this season's interpretation of "The Vinegar Tree" is scheduled for 8:15 o'clock this evening. The show will be repeated at the same hour on Friday, Saturday and Sunday nights, with a special matinee at 2:30 p. m. Sunday.

Cover Nine Million Votes Cast for All- Star Football Team

Starting Lineup August
23 Picked: Squad
of 70 Eligible

Chicago, July 31.—(AP)—Tommy Harmon and Forest Evashevski, Michigan's famed runner and blocker, will romp together once more—but there may be an entirely different story to tell this time.

The Wolverine twosome, scourge of midwestern gridirons for three years, will team up this time with other celebrated college seniors of 1940 to engage the powerful Chicago Bears Aug. 28 in the annual All-Star game in Soldier Field.

More than 9,000,000 votes were cast by the nation's fans in selecting the All-Star personnel and 1,421,586 of the ballots named Harmon at halfback. Second in the individual totals was Evashevski, the demon blocker, with 1,357,674.

The starting lineup against the pro champions, in addition to the Michigan pair, will consist of Dave Ruckins, Purdue, and Ed Rucinski, Indiana, ends; Nick Draho, Cornell, and Ernest Pannell, Texas Aggies, tackles; Augie Lio, Georgetown, and Tommy O'Boyle, Tulane, guards; Rudy Mucha, Washington, center; George Franck, Minnesota, at halfback opposite Harmon, and George Paskvan, Wisconsin, fullback. Evashevski is tabbed at quarter.

59 Others Named

This star-studded array will be augmented by 59 other players, rounding out a squad of 70 eligible for action against the Bears, the 73-0 conquerors of Washington in the pro title game.

The All-Stars and Bears will begin drills for the engagement on Aug. 10, the collegians at Northwestern University and the Bears at St. John's Military Academy, Delafield, Wis.

The Bears, although one of the wilkiest teams in the pro game, don't have too much of a weight advantage on their rivals. The All-Star line from tackle to tackle averages 217 pounds and from end to end 211 pounds. The backfield has a mean weight of 190.

Coaches for the All-Stars haven't been announced yet. Heretofore, the fans chose the staff in a contest similar to the player poll, but this year they will be appointed by the Chicago Tribune, originator and sponsor of the game, one of the five coaches to be named will be announced Friday.

Commissioner K. M. Landis announced the crowd of 54,674 contributed to a gross gate of \$63,267.08. The USO received all except \$10,040.81 consumed by game expenses, such as training expense of players and umpires, tickets, ushers, etc.

Abrams Beats Billy Soose Third Time in Rousing Battle

New York, July 31.—(AP)—Little Georgie Abrams finally has punched his way out of the second fiddle job in the middleweight jazz band, but the chances were slim today that he'd be invited to play the championship tune.

The husky Washington wallower took a furlough from his Naval Reserve station last night and all but punched the ears off Billy Soose in a rousing ten-round clouting party. Billy's world middleweight championship—as recognized in New York and California—was not on the line.

Only a slim crowd rattled around in Madison Square Garden's first fistic get-together of the summer, but the 6,223 on hand were rooting for Georgie, because they knew he was fighting for a shot at the 160-pound crown. This had been denied him before because he had the misfortune to belong to the same club stable as Ken Overlin. Soose won the crown from Overlin in May and agreed to defend it against either Ken or Abrams.

Abrams had belted Billy into defeat twice before last night's success, and after number three, everyone figured he deserved the chance. But Promoter Mike Jacobs, indicated he would select Overlin for some reason which wasn't quite clear.

Rampaging Commies of Decatur Take Second Place in III League

By The Associated Press

Decatur's rampaging Commies moved into second place in the Three Eve League last night, three and a half games back of pace-setting Evansville.

The leader was idle while Decatur was whipping Clinton again, 8 to 5. The Commies battered Hubbell for five runs in the first frame only to see Clinton push across two in the fourth and three more in the sixth to tie the count. But Decatur produced the winning tally in the seventh and added two more for insurance in the eighth.

Cedar Rapids slid back into third by splitting two games with Moline. The Raiders took the first 4 to 2, scoring all their runs in the last two innings. But Moline won the nightcap, 4 to 3, with a run in the ninth. The Raiders now are only two games ahead of Springfield in fourth.

The Brownies swept a doubleheader with Madison, 10 to 6 and 5 to 1. Evansville and Waterloo were not scheduled.

Cardinals' Stamina and Class Seemingly Assurance for Flag

Come from Behind Often:
Did It Again Against
Dodgers Yesterday

By JUDSON BAILEY
Associated Press Sports Writer

The St. Louis Cardinals have the class that distinguishes a champion and barring a miracle—or a catastrophe—they are likely to proceed to the National League pennant.

They have plenty of pitching, fine fielding and marvelous power—eight hitters batting over .300 and one who was .299 in the last official averages. But most of all they have the stamina and courage that is required to come from behind and win the close games—the battles that count.

This was the way they beat Brooklyn yesterday, 6-4, to take a three-game lead over the Dodgers in their torrid pennant tussle. The Dodgers scored a run in the first and then were held to one scratch hit for the next five frames while the Redbirds pulled into a 3-1 lead.

The Dodgers got a run back in the seventh through an error and in the eighth Pete Reiser hit a home run with one on to put Brooklyn in front 4-3.

This only caused the Cardinals to strive harder and they immediately ripped off three runs in their half of the eighth to sew up the game. Martin Marion doubled off the rightfield wall. Don Padgett walked and Estel Crabtree singled for one run. Frank Crespi, who had four straight hits, sacrificed and Terry Moore singled for two more tallies.

Discounting Tuesday's tie, in which the Cards counted six runs in one inning to overcome a 6-1 Brooklyn lead, this was the fourth straight victory for St. Louis over the Dodgers.

It was credited to Lefty Ernie White, who held them to six hits before being removed for a pinch-hitter in the eighth, and was his fifth triumph in nine days as well as his 12th of the season against three defeats.

Pirates Drop to Fourth
The Pittsburgh Pirates yielded third place to Cincinnati again by dropping a 3-2 ten-inning verdict to the Boston Braves while the Reds were pelting the New York Giants 9-0. Bucky Walters acquired his 13th triumph in the latter affair, although giving 11 hits.

The Reds themselves made 16 off three New York pitchers. Ernie Lombardi singled with the bases loaded once and drove in a run with another single later.

The game at Pittsburgh was a dazzler. Jim Tobin, former Pirate, allowed only one hit till the seventh and six altogether. He himself hit a double in the fifth to drive in Boston's only run in the first nine innings. In the tenth Buddy Hassett's fly was misplayed for a triple and two singles brought Boston two runs, enough to withstand a one-run pirate counter-attack.

The Phillies and Chicago Cubs split a doubleheader. A six-run fifth inning gave the Phils the first decision 8-4. Chicago captured the nightcap 5-3, with Tot Pressnell pitching three-hit ball in six innings of relief.

American League
Action in the American League was confined to two night games. Washington beat the Cleveland Indians 7-6 and Bob Feller failed for the third straight time to snare victory No. 20. He was not charged with the loss because he was removed for a pinchhitter during a two-run Tribal rally in the ninth. But with Joe Heving and Harry Eisenstat on the mound, Washington came back with two runs of its own on doubles by Doc Cramer and Cecil Travis. Feller gave nine hits in eight innings, fanned four and walked three.

The Philadelphia Athletics squeezed out a 5-2 11-inning victory over the Chicago White Sox with Sam Chapman accounting for all the A's runs on two homers. He hit one in the sixth with two on and broke up the game in the 11th with another, his 19th of the year, with one on. Luman Harris and Rump Hadley allowed the Sox only six hits. This put the two teams back in a virtual tie for fourth place.

Palmer House Semi-Pro Champs Face Last Test

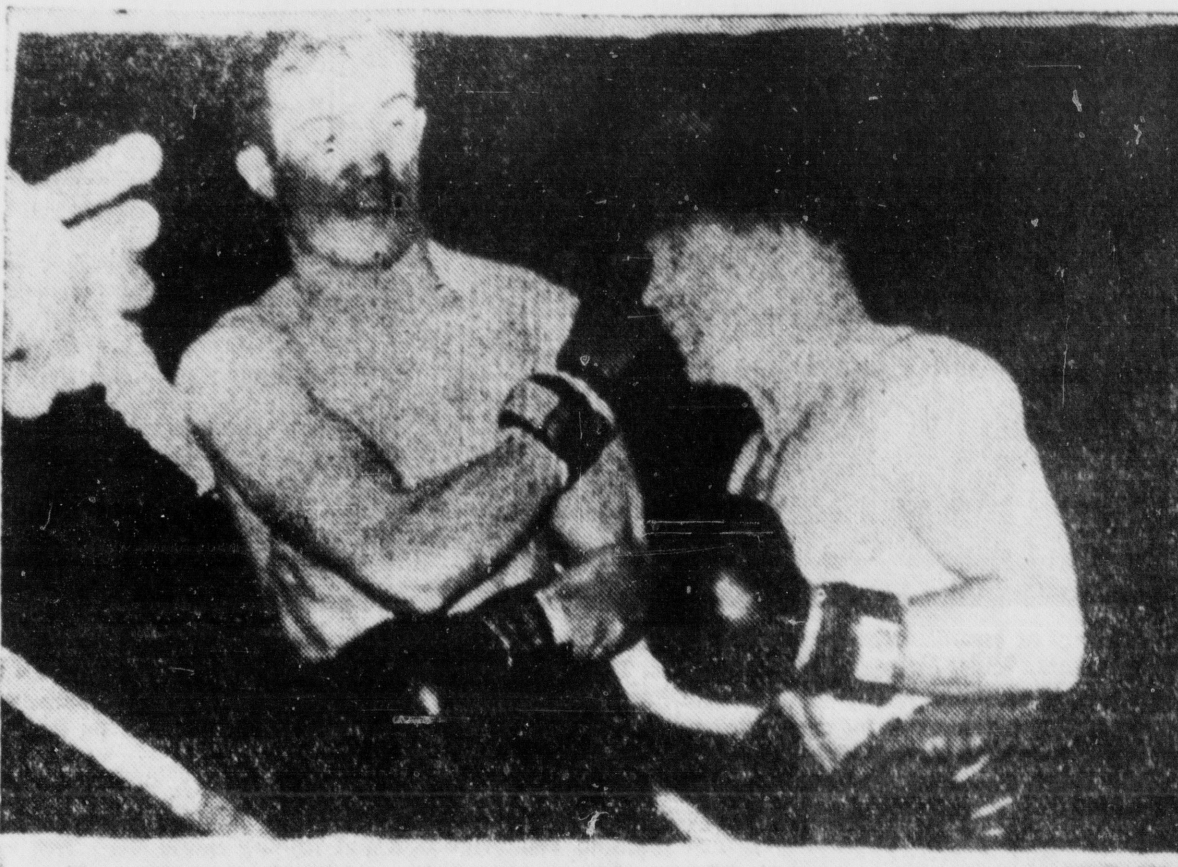

Kewanee, Ill., July 31.—(AP)—The Palmer House All Stars of Chicago, shooting for their third straight state semi pro baseball title, must win tonight to remain in the running for the 1941 championship.

The Chicagoans engage Joliet Schlitz in the only game tonight in the round robin tourney. Each team has won two of three games, thus the loser will suffer elimination.

Waukegan's Johnson Motors rung up their third decision in four games last night, eliminating Springfield Valley with a 9 to 2 triumph. A four run cluster in the first and a five run cluster in the fourth was more than sufficient behind the steady hurling of Bob Hubley, winning pitcher in all three victories.

During the five years between 1935-1939, the last period for which complete national statistics have been compiled by the Census Bureau, deaths from injuries due to accidents totalled 501,458—a number greater than the 1940 population of such cities as New Orleans, Minneapolis, or Cincinnati.

Hundreds Gather in West to Honor Howard H. Jones

Hollywood, July 31.—(AP)—Gathered from far and wide, hundreds of friends paid tribute today to Howard Harding Jones, who built a football dynasty at the University of Southern California.

Funeral services for the veteran coach, one of the greatest in the history of the sport, were to be held at the First Methodist church.

The 55-year-old gridiron master, whose record of sending five teams to Rose Bowl victories never has been equalled, died of a heart attack at his North Hollywood home Sunday.

The sorrowing throng with its personnel of greats and near-greats in the world of football; the tremendous array of floral offerings; the steadily mounting number of messages and expressions of condolence—all lent silent testimony of the love and respect held for Jones, the headman, by persons all over the nation.

Several coaches were present, including Frank Leahy of Notre Dame.

T. A. D. Jones, former Yale coach, came to accompany the body of his brother home. Burial will be in the Jones family plot at Middletown, Ohio, a few miles from Jones' birthplace at Excello, Ohio.

Tommy Harmon Pitcher De Luxe in Hollywood

Hollywood, July 31.—(AP)—Note to Fritz Crisler, Michigan U. football coach:

Tommy Harmon, your All-America football speedster, can pitch, too.

Tommy, blushing redly, won a garter pitching contest at Earl Carroll's night spot last evening. The idea—and when an idea—was to pitch an oversized garage over the leg of a Carroll chorine.

Tommy, still blushing, received a kiss from Beryl Wallace, star of the show, and a quart of champagne as his prize.

Called up to take a bow, Tommy did a disappearing act... he accidentally stepped on the button which lowers the stage.

Raised back into view by alert stagehands, Tommy predicted that Stanford on the coast and Northwestern, Minnesota and Michigan in the Big Ten would be the 1941 gridiron standouts.

P. S.: Tommy said he acquired his garter pitching prowess tossing horseshoes.

HANDICAP A BLESSING

Success secrets in baseball are fascinating when you can get to the inside story. Mel Ott, No. 1 hero of New York Giants' fandom, had a problem as a rookie back there in '26 and '27. He couldn't master the knack of reaching a base full speed without overrunning. Time and again he'd either go past the bag and have to scramble to get back, or else he'd slow up 2 or 3 steps too soon before reaching the base.

"Out" instead of "Safe" was Mel Ott's lot on a lot of close ones, with Manager McGraw racking up his brains to find a solution. Mel solved it himself.

Namely, he took up home run hitting, so he wouldn't have to stop at any base all the way around. This method of coping with the situation made the schoolboy of 1927 the grown-up National League all-time record-holder for home runs. Nowadays every time he hits one, the jarrapping Louisiana sets a new lifetime record for National League sluggers of the future to shoot at. Maybe, if he'd been more expert at holding the bases in his youth, his name wouldn't be in the all-time book of baseball records today.

During the five years between 1935-1939, the last period for which complete national statistics have been compiled by the Census Bureau, deaths from injuries due to accidents totalled 501,458—a number greater than the 1940 population of such cities as New Orleans, Minneapolis, or Cincinnati.

Owner, Champion Trotter Is Lucky in His Purchase

Charlotte, N. C., July 31.—(AP) R. Horace Johnston, whose trotting horse, Bill Gallon, will be a favorite in the Hambletonian at Goshen, N. Y., Wednesday, is considered a freshman by veterans of the rig business.

Just three years ago to the day of the Hambletonian, which is to trotting as the Kentucky Derby is to thoroughbred racing, Johnston went to Hanover Farm sales in Harrisburg, Pa., to buy a colt. Most trotting horse racers spend years before they land a contender in the Goshen race.

Johnston, Millionaire manufacturer, had been a horseman for 45 years but this was his first fling at trotting. He paid \$1,800 for Bill Gallon.

There wasn't much spirited bidding for Bill Gallon, Johnston recalled today, and several of the others (their names were soon forgotten) sold for \$6,000 or more.

"I just liked his looks", Johnston said. "Of course, I had years of experience with horses behind me but this was my first time with trotters."

"It was nothing in the world but luck—just luck."

A year later Johnston knew he had one in a thousand. As a two-year-old the even-tempered trotter was a champion and a leading money winner.

Next Base May Be in Germany, Says Illinois Senator

C. Wayland Brooks Will Do His Part If War He Opposes Comes

Salem, Ill., July 31.—(AP)—Illinois Democratic and Republican meetings of the past two days gave way today to the annual rally of the state American Legion at the Marion County Soldiers' & Sailors' reunion.

State Commander William Waugh was the principal speaker. U. S. Senator C. Wayland Brooks, speaking at yesterday's Republican session, advocated a policy of non-intervention in foreign wars. In such manner, he asserted, the United States can become the moral and financial force of the world after other nations have spent themselves.

"We must assert ourselves to protect what we have, regardless of the cost," Brooks conceded. "But we don't want to spill blood on the four corners of the earth."

The senator stated, however, that while he would make every effort to oppose the entry of this country in the war, he would be equally active in doing everything in his power to help the nation win if it becomes involved.

The junior senator was especially bitter toward the policy of "acting without authority" of the "internationally-minded" federal administration.

Next Base May Be Germany

Brooks asserted the administration had no authority to sell the 50 destroyers to England, so the lease-lend bill was passed "to keep us out of war."

"England got the boats," he continued, "and we got the privilege of negotiating for air bases at their price."

"He said an army base was established in Newfoundland to protect American interests; troops were sent to Greenland to protect Newfoundland; Iceland occupied to protect Greenland and Ireland may be occupied to protect Iceland."

"The next base may be in Germany," Brooks contended.

The senator also charged a trust fund of two billion dollars had been built up to make social security payments, but government bonds had been purchased with the money and the people would in turn be taxed to retire these bonds.

Brooks left for Washington immediately after his address to vote "no," he said, on the proposed extension of the period of service for selectees.

Rep. Robert J. Branson of Centralia praised the administration of Gov. Dwight Green, whom he described as a sincere, honest, conscientious and hardest-working governor in the history of Illinois.

Little Egypt Has Five Men Flying in Allied Force

Herrin, Ill., July 31.—(AP)—With the recent enlistment of George Bradshaw of Herrin, 23, in the Canadian Royal Air Force at Windsor, southern Illinois has at least five representatives either in the Canadian air force or engaged in ferrying Britain-bound bombers.

The others are Dwayne Linton of Herrin, 23; Charles W. Bush, Jr., of Carbondale, 23; Frank M. Chase, Jr., of Anna, 21; and Kenneth "Beans" Hunter of Sparta, 31, one of the famed Hunters who once held the endurance flight record.

A sixth from Egypt, Philip H. Leckrone of Salem, was killed in a plane crash while serving as a member of the Eagle Squadron of the British Royal Air Force in England several months ago.

Even the latest to join the growing band of Egyptians in Canada had at least some aviation experience in southern Illinois. After completing one enlistment in the U. S. Navy in the submarine service, Bradshaw took flying lessons at an airport at Marion and he flew extensively in one of two antiquated planes that he purchased and overhauled.

Chase, Linton and Bush also are graduates of the Marion Airport. Both Linton and Bush visited relatives at Herrin and Carbondale respectively a few weeks ago after winning their wings following eight months training in Canada. At that time Linton expected to be transferred immediately to England to pilot fighting planes while Bush expected to begin ferrying bombers to England from Nova Scotia.

Ousted Employees of Safety Dept. Go to Court Seeking Jobs

Chicago, July 31.—(AP)—A mandamus suit to force their reinstatement was filed in Circuit court yesterday by three suspended employees of the state department of public safety.

Named as defendants in the action, which charged that the plaintiffs were replaced by political appointees not on the eligibility list, were T. P. Sullivan, department director, and the Civil Service Commission.

The suspended employees were Martin Marshall and Willis M. King, former guards at the Vandalia state farm, and Frank X. Surges, industrial foreman at Joliet penitentiary.

Democrats Being Lopped Off State Payroll Rapidly

Springfield, Ill., July 31.—(AP)—Republican state officials, spurred by the demands of thousands of GOP job-seekers, lopped Democrats from the state payrolls at an accelerated pace this month. An official report disclosed that 660 employees were removed while 736 new appointees were placed on state payrolls during the month.

The report on the jobs turnover was made by the state division of department reports. The administration's estimate of job changes during June was approximately 200.

The report said the increase in the number of jobs included "appointments made necessary by the creation of the new department of public safety, which came into existence July 1."

"A number of vacancies which had existed for several months in the departments of agriculture, conservation and public works and buildings also were filled," the report said.

Welfare Dept. Leads

The report said that "the largest number of changes occurred in the department of Public Welfare where during the month 375 employees resigned or were removed, and were replaced."

Many employees of this department were said to have resigned to take national defense posts.

In the Department of Public Works and Buildings 56 regular employees were taken off the payroll and 84 added. In the new Department of Public Safety, 40 employees were replaced, a total of 75 new employees being hired. The additional 35 appointments were made to newly-created jobs.

One hundred three persons were removed from the Department of Finance and 77 replacements made. In the Department of Agriculture 18 were taken off the payroll and 37 added. Fourteen men were added in the Conservation Department and one removed. The additions were part of 47 dropped in January who were ordered restored to the payrolls by Circuit Judge Harry M. Fisher of Chicago.

The survey did not cover departments of elected officials other than Governor Green.

Weekly Food and Marketing Letter by Mrs. Emily M. Lautz for Dixon Telegraph Readers

Sixty varieties of vegetables are available in most sections of the country at one time or another through the year, market experts say. They imply that it is nobody's fault but our own if we merely ring changes on beans and carrots, and peas and beets for the family table.

This is the season to talk about vegetable plates—and to eat bigger and better vegetable plates. And that brings us around to majoring on what seems the most versatile of all, the vitamin-rich, bright red tomato. When baskets of fat, juicy tomatoes with smooth and shiny skins begin to be sold at the market, it is a joy to realize that we no longer must figure about how many we can get for a pound for a salad, for baking, and for the host of favorite tomato dishes.

Perhaps you are weary of hearing the qualifications of the tomato but they bear repetition: One medium sized ripe, red tomato will furnish about half of your day's requirement for ascorbic acid or vitamin C, and about one-fifth of the vitamin A needs for a single day. Some vitamins B1 and G also are there.

But the versatility account runs even longer than the vitamin. Start any meal with tomato juice appetizer; serve tomatoes raw in salad, stuffed tomatoes hot or cold, broiled tomatoes with cheese or bacon topping, baked and scalloped in many forms, fried, in soup, in souffles, or in combinations with rice and macaroni and cheese.

Tomatoes have an affinity for bacon, and a section of bacon, on top of an au gratin dish adds flavor and nourishment. Tomato sauces need no introduction to any audience. The addition of a tomato will help to tenderize cheaper cuts of beef, building up the gravy.

Another oft-overlooked contribution of this vegetable is that tomatoes offset richness in a meal. Precede a hot rich main course with a tomato stuffed with shredded lettuce which has been tossed in French dressing. This is a welcome variation of a vegetable cocktail, and the salad first plan always proves an appetizer. Try serving salad first and you will find that every shred disappears.

Getting back to that vegetable plate, the addition of a baked tomato, stuffed with well-seasoned chopped meat left-overs, adds a substantial and colorful touch. Or use up that bit of boiled rice or cooked cereal by seasoning well, topping with buttered crumbs and baking it in the oblong tomato. A slice or grating of cheese on the stuffed tomato is a happy inspiration.

Both green and red tomatoes may be fried, but the red fellows should not be too ripe. The well-browned slices may be covered with a cream gravy. Use the browned fat left from frying as part of the cream sauce. The simplest method does not peel the tomatoes, but the thick slices are dipped in combined flour (or cornmeal) and seasonings and fried brown in a mixture of shortening and butter. Or try the popular Fried Tomatoes Michael, for which the recipe is given.

Tomato juice cocktail was popularized at the White House during the Coolidge administration, when this recipe was developed:

Tomato Juice Cocktail
To 1 quart of tomato juice, add the juice of 2 oranges and 1 lemon, 1 teaspoon each salt and Worcestershire sauce 1 tablespoon each catsup and granulated sugar. Chill well. Serve 8 generously. Variation: Substitute chili sauce for catsup.

Although prepared, pre-seasoned tomato juice now is bought in increasing quantities annually, many still prefer to "mix their own," adding a little bit of this and that until it suits individual taste. For some tastes tomato juice appetizers, are improved by the addition of such seasonings as prepared horseradish or a few drops of tabasco sauce. Freshly squeezed lemon juice is the most common addition. In some households a slice of raw onion is put in the tomato juice and removed before serving.

Tomatoes are happy with French dressing if they aren't left together too long. Since French dressing draws out the juices, add it to cut or stuffed tomatoes before serving.

Another "don't" is the once-familiar practice of scalding the tomato before chilling it for slicing cold. This has been losing favor. The epicure says "never, never scald"; pare it with a sharp knife.

The addition of sugar with cooked tomatoes and the cold cock-

tail is a flavor accent, just as it improves such vegetables as green peas, beans and carrots—in smaller proportions. Add 2 to 3 teaspoons of sugar next time you are stewing tomatoes.

Whether you use tomatoes for vitamins, minerals, their "low calorie value", their budget virtues, versatility, or all-around goodness, serve them regularly and often.

TOMATO SPECIALTIES

Fried Tomatoes Michael
8 to 10 tomatoes.
Flour, salt, pepper.
1 tablespoon shortening.
1/4 teaspoon soda.
1 tablespoon sugar.
1/2 cup light cream.

Scald and skin the tomatoes. Slice and dip into flour which has been mixed with salt and pepper. Saute in shortening (or part butter) and when brown on both sides, break up with a spoon and add soda, sugar and cream. Add extra seasoning, if necessary. Reheat and serve at once.

Tomatoes, Bananas Tropical
Serve this as a hot luncheon dish or try it as an accompaniment to broiled steaks or chops:

2 large tomatoes.
1 firm banana (4")
3 tablespoons cheese, finely grated.
Salt.
Paprika.
(*) Use all-yellow or slightly green-tipped banana.

Cut each tomato crosswise into

3 thick slices. Peel banana and cut into very thin slices. Cover each tomato slice with overlapping slices of banana. Sprinkle with salt, cheese and paprika. Place on broiler rack about 5 inches below heat. Broil about 10 minutes or until cheese is melted and lightly browned. Serves 6.

Vitamin Riches

Stuff firm, ripe tomatoes with shredded raw cabbage, seasoned with mustard dressing; or fill with cottage cheese, flecked with chives. Use the pulp in scalloped dishes, gravy, stew or soup.

SUBSTANTIAL APPETIZER

Banana Salmon Loaf

What to serve in hot weather? The main dish must be nourishing without being too rich and hearty. This loaf fits into luncheon dinner or buffet service and even travels solidly to the picnic spot.

2 eggs, well beaten.
2 cups salmon, flaked.
2 cups soft bread crumbs.
1/4 cup chopped celery.
1/4 cup chopped onion.
2 tablespoons chopped green pepper.

1 teaspoon prepared mustard.
2 teaspoons salt.
1/2 teaspoon pepper.
Add bananas to egg and mix well. Add remaining ingredients and mix thoroughly. Turn into well-greased loaf pan (8 1/2 x 4 1/2 x 3 inches) and bake about 40 minutes in a moderate oven 375 degrees F, or until loaf is done.

Serve plain, or with white sauce or tomato sauce.
String Beans With Cheese
1 quart string beans.

1/2 cup top milk.
1 tablespoon butter.
1/2 cup grated cheese.
1 teaspoon salt.
Few grains cayenne.
Remove ends and string from beans; cut lengthwise in 2 or 3 pieces. Parboil. Place in buttered baking utensil, add remaining ingredients, cover and bake. Bake 20 minutes in moderately hot oven 400 degrees F. Serves 4 to 6.

Community Health

Both children and their mothers have been receiving literature on nutrition in connection with the community health program launched by the Mothers' Health Organization of the Lower East Side, New York City. The boys and girls got facts like this:

"You must have fruits and vegetables every day—
"To grow big; to grow strong; to grow good-looking.

"Fruits and vegetables give you a good appetite.

"They give you rosy cheeks; they make you feel full of pep."

Mothers have been receiving practical recipes, suggestions for marketing and for the latest style for cooking vegetables, such as:

"In cooking green leafy vegetables, use no more than 1 cup of water. Cook only 10 to 15 minutes.
"In cooking other vegetables, use only enough water to cover them. Cook 20 to 30 minutes.
"When cooking vegetables:
"1. Do not add soda to vegetables.
"2. Add salt when the vegetable is partly cooked.
"3. Do not throw the vegetable

water away. Put it in the soup or gravy.

"4. Before cooking, don't forget to wash vegetables well to remove all sand and dirt."

Part of the lesson was fresh fruit daily (tomatoes may be used in place of oranges or grapefruit), and at least two different vegetables every day; potatoes may be one of these vegetables.

Children are being reminded to "eat" or drink milk every day, the word "eat" emphasizing that milk may be taken in other forms (desserts, soups, sauces) as well as a beverage.

DOLLAR IS JUST BIT OF PAPER IN BULK OF EUROPE

By Alex Small
(Chicago Tribune Press Service)
Berlin—Over most of Europe the American dollar has become a worthless piece of paper. The

only regions where it still has any value are Portugal, Spain, and unoccupied France.

Even Sweden has joined in the quarantine of the dollar. The national bank of Sweden has ordered that all transactions involved in dollars must be submitted to the bank's board of currency control. No business in dollars was transacted on the Stockholm currency market earlier this week.

Dollars Can't Be Changed
In Germany and all territories controlled by the Germans the situation is simple. The central bank for dealings in currency—the German gold discount bank of Berlin—will not change dollars in any form.

Meanwhile American businesses and individuals can get no dollars out of their accounts or have them changed into marks.

Little signs show what state

the world's proudest currency has fallen. It has been reduced to the level—in German eyes—of the German mark or Italian lire or pound sterling.

One Example in Berlin
One of Berlin's more flamboyant hotels today informed an American customer—who has been staying there for four months and paying approximately \$12 a day for his room—that hereafter he will be allowed credit for seven days only and he must pay his bills promptly on presentation. The reason, frankly given, was that the management is afraid to trust American customers.

It is reported here that the dollar has disappeared from the list of currencies quoted in Switzerland. The American business of Swiss banks has come to a standstill.

Dewey Not Candidate for District Attorney

New York, July 31—(AP)—District Attorney Thomas E. Dewey said yesterday in a seven-word statement: "I shall not run for district attorney." His term expires this year.

Dewey's aides took his statement to mean that the district attorney was relinquishing his 11-year role as a special prosecutor and crusader against vice and rackets for the state and federal governments.

Dewey was an aspirant for the Republican presidential nomination last year. His four-year term as Manhattan's district attorney expires next December 31.

CIO Wins Election

in M'Cormick Works

Chicago, July 31—(AP)—The
CIO's Farm Equipment Workers
Organizing Committee scored a
241 vote victory over a rival AFL
union in a run off election yester-
day to determine a collective bar-
gaining agent for production and
maintenance employees of the In-
ternational Harvester Company's
McCormick works.

Charles A. Graham, National
Labor Relations Board regional
supervisor, announced these re-
sults: 2,806 votes for the FEWOC;
2,565 for the AFL's Federal La-
bor Union No. 22804. Of a total
of 6,092 employees eligible to bal-
lot, 5,505 votes were cast, with
109 challenged, 12 blank and 13
void.

The CIO's 241 majority consti-
tuted a larger number than the
134 votes challenged, blank and
void, thus precluding third elec-
tion. Yesterday's balloting was
ordered by the NLRB which
found the results of a June 18
election inconclusive.

Reports on the run off election
will be submitted to both unions
and the NLRB at Washington.
Each union has five days in which
to file objections. Final certifi-
cation or dismissal of the election
will be made by the NLRB in
Washington.

Italian investments in the U. S.
at the end of 1940 were estimated
at \$74,000,000.

GETS "E" FOR EFFORT

Garden City, Kan., July 31—
(AP)—Police Chief Lee Richard-
son is willing to give this pris-
oner "E" for effort.

The chap escaped from a city
work gang July ninth. Yesterday
the chief received a letter from
Texas asking Richardson to for-
ward some papers and personal
belongings left behind.

Richardson declined to surren-
der the articles except upon per-
sonal application.

Rail Management, Labor Parley Has Struck Deadlock

Chicago, July 31—(AP)—Rail-
road management and labor nego-
tiators rammed into a deadlock on
revision of working rules, de-
spaired of settling the issue among
themselves and turned it over to
the National Railway Mediation
Board today.

They undertook, however, to ne-
gotiate a settlement of labor's de-
mand for a multi-million dollar
pay increase for 1,150,000 work-
ers.

The nation's class 1 carriers
hoped to effect economies in op-
erating costs by altering working
conditions and methods of estab-
lishing wages.

A deadlock was reached Tues-
day in conferences with delegates
of the 14 non-operating unions and
last night with those of the big
five operating brotherhoods.

Management said it sought
more authority in work assign-
ments. F. C. Gurley, chairman of
the carriers conference committee,
said existing rules sometimes re-
quired roads to pay employees for
work they did not do and to pay
claims for wages after a lapse of
several years.

Union spokesmen contended the
proposed revision would place
their men "completely at the
mercy of the unknown and unpre-
dictable demands of management"
and if accepted by the employees
"would repudiate the publicly ac-
claimed benefits achieved under
the railway labor act."

Hopkins May Pay Visit

to China's President

London, July 31—(AP)—Harry
L. Hopkins, President Roosevelt's
military aid co-ordinator, now in
Moscow discussing United States
help for Russia, will return to the
United States by some route other
than London, it was reliably re-
ported today.

There has been some speculation
that Hopkins might visit China.
He has pledged both the Chung-
king and Moscow governments all
possible, immediate aid.

W. R. C. Picnic
All of the thirteen district of Woman's Relief Corps' organizations gathered in Memorial Park at Rochelle, Wednesday, for the annual picnic and meeting. A cooler day made the park wonderfully refreshing and enjoyable. Dinner was served at the noon hour to large numbers of visiting corps members. The success of the picnic was largely due to Mrs. E. A. McCaslin and the local member assistants.

During the afternoon's program, the Byron Kitchen band played several selections. Marilyn Vaughn and Eva Welsh rendered selections on their accordions, and songs were sung by Patsy and Marlene Hanson.

The group appreciated the co-operation of local merchants. Coffee was furnished by the Kroger grocery and the National Tea store; sugar was donated by the Harrison grocery; A. & P. supplied the tea; and Clark's dairy donated the cream.

Country Club News
The weekly Ladies Day at the Town and Country club found two women golfers on the links, Wednesday morning, and 20 out for lunch and afternoon bridge. During afternoon bridge, Mrs. John Carlson was awarded first prize, and Mrs. Wiley Owens, second.

Next Wednesday, August 6, the women of the DeKalb and Dixon Country clubs will be guests for golf, luncheon and bridge. Members are asked to make reservations with Mrs. Henry Harms at the clubhouse, before next Tuesday noon. Mrs. Orva Kiene and Mrs. D. J. Hooley are chairmen for the month of August events.

Work on Well Starts
Within sixty days work is expected to be completed on the digging of the new city well on the south side of Rochelle. Contract for the 800 foot well was awarded Monday night to the McCarthy Well Construction company of St. Paul, Minn., with the bid at \$4,600.

Water Main Approved

'Pipeline' Solves Complication Over Dance Over Border
Fort Fairfield, Me., July 31—(AP)—A border complication involving a Canadian ban on a United States dance orchestra was written off as closed today as a result of Yankee ingenuity and a musical "pipeline".

Scene of the difficulty Tuesday was the Arostook Valley Country Club. Its clubhouse is on the Canadian side of the line, in New Brunswick, and its automobile parking space on Uncle Sam's side. The occasion was the annual ladies night of the Fort Fairfield Rotary and Lions clubs. The clubs wanted to take their orchestra into the clubhouse, but Canadian immigration authorities ruled that the musicians could not play in Canada for a dance.

Board Adopts Budget
At a special meeting of the board of education of Rochelle Township high school, held Monday evening, a tentative budget for the 1941-42 school year was adopted. The budget is on file with Mrs. J. A. Herrmann, secretary of the board, where it may be seen by all interested persons.

A hearing on the budget will be held at the high school at the next regular meeting at 7:30 p. m., August 11, after which it will be adopted in its final form.

Notice
Boys found shooting air rifles or destroying property will be arrested and prosecuted to the full extent of the law is the warning issued by Jay Maxson, commissioner, head of public health and safety department, in reply to complaints which have been received by the police department.

Red Cross Asks Services
